

Enhancing Communication and Safety in Healthcare Facilities

with Best-in-Class Radio Solutions from Avoira

At Avoira, we partner with leading radio equipment manufacturer Motorola to deliver top-tier communication solutions tailored to meet the unique needs of various sectors, including healthcare.

In today's healthcare environment, ensuring reliable communication and safety is critical. Our range of advanced two-way radio products and body-worn cameras offer robust and efficient voice and video communication networks that are essential for managing and securing healthcare facilities.

TRBOnet

Enhances communication and coordination in healthcare facilities with a robust, scalable, and flexible IP-based dispatch system, ensuring seamless, efficient, and secure operations across various radio systems.

Motorola R7

Key Features:

Short-Range Communication: Perfect for everyday use within a hospital, ensuring clear and reliable communication between staff members.

Benefits:

Enhances coordination among medical, administrative, and security personnel, ensuring smooth day-to-day operations.

Body-Worn Cameras

(BWV – VB400 / VT100)

Key Features:

Audio and Video Recording: Provides a reliable tool for evidence collection and accountability.

Benefits:

Enhances security and transparency within hospitals, helping to monitor interactions and ensure the safety of patients and staff.

Motorola Wave PTX

Key Features:

Broadband Push-to-Talk (PTT): Connects different devices and networks, including smartphones, radios, and PCs.

Benefits:

Enables instant communication across various platforms, ensuring that all hospital staff can stay connected regardless of the device they are using.

Motorola Evolve

Key Features:

Motorola Evolve is specifically designed for emergency communication. Evolve enables quick alerting of relevant personnel and coordinated responses during major incidents (MAJAX).

EPRR Tool: Essential for emergency preparedness, resilience, and response, supporting the prevention, control, and mitigation of emergencies.

Benefits:

Facilitates swift and organised reactions, minimising risks during emergencies. Improves communication among staff, ensuring effective management of critical situations. Helps prevent potential incidents and mitigates the impact of emergencies, ensuring a safer environment.

Motorola Ion

Key Features:

Smart Radio: Combines traditional push-to-talk with an Android platform, offering access to various applications.

Benefits:

Facilitates seamless communication and access to healthcare apps and tools, enhancing both safety and operational efficiency within the hospital environment.

Why Choose Avoira?

Expertise and Customisation

With over 40 years of experience, we design and implement customised telecom solutions that cater specifically to the needs of healthcare facilities.

Our expertise ensures that hospitals are equipped with state-of-the-art communication systems that are both reliable and easy to use.

Safety and Efficiency

Our products enhance safety by ensuring clear and constant communication during emergencies. They also improve operational efficiency by enabling better coordination among staff, thus contributing to a more secure and effective healthcare environment.

Talk to an expert

At Avoira, our goal is to bring people together through technology. We believe in creating meaningful conversations, promoting faster business growth, and instilling confidence in communication. With over 40 years of experience, we provide comprehensive and seamless telecom solutions without any technical complexities. Our solutions are customised and tailored to meet our client's unique connectivity needs.
